### FILLMORE & WESTERN RAILWAY CO. - SANTA PAULA BRANCH

**1. Fillmore Fish Hatchery**-Produces approximately one million Rainbow Trout each year and stocks Southern California Lakes, reservoirs and streams.  
**2. Downtown Fillmore**-Nestled in the valley among lush citrus and avocado groves with a population of approximately 13,000. The downtown district is reminiscent of the 30s and 40s with quaint shops, restaurants and historic landmarks.  
**3. Sunlight Lemon Packing Plant**-One of several packing plants on the branch line. In its heyday this plant packed over 100 refrigerator cars each day going to the East Coast markets to be distributed worldwide.  
**4. Sespe Condor Sanctuary**-A 53,000 acre Sanctuary established in 1947 to protect the California condor.  
**5. Brimstone Quarry**-Sespe Brimstone is a colorful rock composed of a mixture in varying degrees of silicon, magnesium, calcium and aluminum oxides. The stone was extensively used by the Southern Pacific Railroad in building foundations for bridges and trestles all along its California routes.  
**6. Mt. San Cayetano**-Legend has it that pine trees in the pine groves seen from the Fillmore Valley were used in the beam construction of Ventura County's Mission and Ranchos. Known by the Indians as "Father Mountain".  
**7. Sanitary Dairy**-Built in 1916, the Dairy was the milk supplier for the Santa Clara Valley.  
**8. Rancho Sespe**-Originally planned to be a township in the early 1800s, but was never established. However, it was one of the leading citrus producers and the largest privately owned packing facilities in the Valley.  
**9. Rancho Sespe** was sold and subdivided in the late 1980's and is now Norman's Nursery. The site now contains more than 2 million plants destined for developments in Southern California and Western Arizona.  
**9. Sycamore Tree**-One of the earliest monuments in this region used as a meeting place for Native American Tribes and Padres that traveled the El Camino Real.  
**10. Little Red School House**-The Queen-Anne School seen from the train and on Hwy 126 is the fourth institution built to educate the elementary students living in the Santa Clara School District. The building opened in 1896 to 60 pupils in the spacious one room school. Today it continues to serve students from Kindergarten through the Fifth Grade, and is one of the last of its kind in the State.  
**11. Santa Paula Peak**-Located to the north, the Santa Paula Ridge with the prominent peak being Santa Paula Peak (alt. 4945'). Appearing on the ridge line are the tops of a unique conifer called the Big Cone Spruce. The south border of the Los Padres National Forest (this broad swath of mountains, canyons and trout streams) is known to locals as the Back Country. With few roads and many trails, it offers spectacular scenery and welcomed solitude.  
**12. Steele Park**-Santa Paula Creek flows through this beautiful park which has much to offer: shade trees, an aviary, fishing, hiking, BBQ and campground.  
**13. South Mountain**-Paralleling the Ridge on the South side of the Santa Clara River Valley is South Mountain. The site of rich oil fields developed in the late teens; the discerning eye can spot evidence of oil activity. The range is actually the western end of the San Gabriel Mountains.  
**14. Santa Paula Airport & Aviation Museum**-The Aviation Museum highlights the history of this 1930's airport, home to one of the largest antique aircraft collections in the world.  
**15. Santa Paula Depot**-The depot is one of Santa Paula's oldest commercial enterprises. The train station was completed in April 1887, and from 1887 to 1904, this was the main line connecting the central route with the coastline. The Depot is the last one in Ventura County to be both intact and on its original parcel. It remains a popular photo op for amateurs, television and movie studios. Today the Depot is home to the Santa Paula Society of the Arts, Art Gallery and the Santa Paula Chamber of Commerce.  
**16. The Mill**-Completed in 1888, the huge wooden structure was one of a chain of six built by the Southern Mill and Warehouse Company to store tons of dried lima beans. For years, The Mill served as a popular feed and grain store and was previously operated as a collection of antique shops. The Mill is now currently home to The Ventura County Agriculture Museum.  
**17. California Oil Museum**-The 2-story building was completely restored and refurbished by UNOCAL to celebrate its 100th anniversary in 1990. The museum offers interesting hands-on exhibits that explain and interpret the oil industry including an authentic working cable-tool rig.  
**18. The Summit Restaurant**-Opened in 1969 and still using some of their famous recipes: chili, corn burritos, and saucis. Best Homemade Strawberry shakes in Ventura County and the best burgers in Ojai. Tell 'em Dave sent ya!  
MP = Mile Post Marker  
Miles To/From San Francisco

### Rules of the Rail

## Steam Locomotive #14

Cloquet, MN August 14, 1953  
After many years of on-again, off-again attempts to restore the 1913 Baldwin Steam Locomotive #14, a 2-8-0, the job is finally complete. Fillmore & Western enlisted some of the most knowledgeable and proficient "steam mechanics" in the business. They worked their magic, putting in countless hours, working with boiler and welding experts, researching the decades-old schematics and adapting and retrofitting the tender, trucks and body. The engine named the "Tresa Jean" during its debut in December of 2010 is anticipated to attract many thousands of rail fans and ultimately film production companies seeking an authentic steam locomotive.

During the Christmas Tree Trains in 2010 and it's appearances at other holiday and special events through out 2011, "Tresa Jean" has brought back memories to many and has created memories for even more. We look forward to another great year of steam.

The home page of our web site, www.fwry.com, keeps a current list of the upcoming scheduled runs. Back in service after a 50-year absence, the #14 reigns as "Queen of the Santa Paula Branch Line"

Fillmore, CA Fully Restored

If you would like to be a part of restoring other historic locomotives and railroad rolling stock, Contact CalLoco at www.caloco.org.  
CalLoco is a 501(c)3 non-profit organization whose goal it is to insure the availability of antique, historical and out of production railroad locomotives for future generations to observe, examine, study and operate.

## Weekend Scenic Excursions (WS)

### STEAM SCHEDULE

STEAM RUNS 1ST SUNDAY OF THE MONTH  
APRIL - SEPTEMBER

January through September & November, Weekend Scenic Excursions depart Fillmore at 12:00pm stopping first at the Loose Caboose Garden Center & Gift Emporium where passengers can shop and browse the fresh produce stands, upside-down gardens and koi ponds, or search for that unique gift item. The second stop of the day is in the historic downtown business district of Santa Paula. You may visit the California Oil Museum, the Art Museum, the new Agriculture Museum, the world-class murals, Southern Pacific depot and the downtown shops, before returning to Fillmore at approximately 4:00pm. Diner service is available in the restored 1928 "Powhatan"

Parlor Car. Call or check the web site to determine availability of service and for months of operation. Food and beverages are additional.

Adults: \$24 Seniors 60+: \$22 Youth 4-12: \$14 Child 2-3: \$10 Under 2 years Free on lap

## A Once In A Lifetime Experience

### CAB RIDES

Ride in the cab of a diesel locomotive with the engineer. Feel the mighty power of the diesel engine as you observe "behind the scenes". A great gift idea for granddads, fathers, sons, grandmas, moms or anyone who loves locomotives. Available by reservations only, any Saturday or Sunday on Weekend Scenic Excursions or specified special events when diesel is operating. During Steam events call for availability and price. \$50 per person, one-way.

Under 18 years old, must be accompanied by adult. Children must be a minimum of 6 years old to ride in cab.
